## EDUCATION

**FPT University**  
**Software Engineering**  
2018 - 2022

## SKILLS

- **Programming language**
  - JavaScript
  - TypeScript
  - Java
- **Back-end:**
  - NestJS
  - ExpressJS
  - GraphQL
  - RestAPI
- **Front-end:**
  - ReactJS
  - NextJS
  - HTML/CSS
  - Ant-design
  - Bootstrap
  - TailwindCSS
  - Material-UI
- **Source management**
  - GitHub
  - Azure DevOps Repo
- **Database**
  - PostgreSQL
  - Microsoft SQL server
  - MongoDB

## LANGUAGE

- English
  - Upper intermediate

# NGUYỄN THÀNH TÍN

## Fullstack Developer

## WORK EXPERIENCE

**CONSORITA GROUP**  
**Fullstack Developer**

08/2024 - 11/2024

- Setting up and configuring Node.js projects, ensuring best practices and efficient workflows.
- Migrating APIs from Golang to Node.js to enhance system performance and scalability.
- Developing and maintaining both frontend and backend components to ensure seamless functionality.
- Identifying, troubleshooting, and resolving bugs to maintain optimal application performance.

**NASHTECH**  
**Intern**

04/2024 - 07/2024

- Collaborated with the team to implement user interfaces using Next.js and TailwindCSS.
- Integrated GraphQL APIs to ensure seamless data communication between the front-end and back-end.
- Designed and optimized reusable UI components for enhanced application scalability.
- Conducted unit testing using Jest to ensure robust application performance.
- Utilized Azure DevOps for source code management and deployment.
- Assisted in configuring PostgreSQL databases for dynamic content management.

**PHAM NGOC THACH UNIVERSITY OF MEDICINE**

09/2023 - 04/2024

**IT Support**

- Address technical issues for end-users by answering inquiries, troubleshooting problems, and providing clear guidance and support.
- Install, configure, and maintain computer systems, printers, and other peripheral devices to ensure smooth operation.
- Design and implement a system for efficient document and task management to streamline workflows.

**KEGMIL**

06/2023 - 07/2023

**Front-end developer**

- Developed new features for frontend components to enhance user experience and ensure seamless functionality.
- Identified, diagnosed, and resolved bugs to maintain optimal application performance and reliability.

## PERSONAL PROJECTS

**BOOKSTORE**

**An online bookstore using an MVC model for the admin page to manage inventory and orders efficiently, and a client-server model for the customer page to handle user interactions and transactions seamlessly.**

- Team size: 1
- Position: Fullstack Developer
- Technologies:
  - Back-end: NestJS, Prisma, GraphQL
  - Front-end: ReactJS, antd, ejs, bootstrap
  - Testing: Jest
  - Database: PostgreSQL
  - Source management: GitHub
  - Link demo: <https://bookstore-tinnt.vercel.app/home>
  - Github:
    - Back-end: <https://github.com/Tin542/bookstore-API>
    - Front-end: <https://github.com/Tin542/bookstore-FE>
  - Hosting:
    - Back-end: Render
    - Front-end: Vercel
